

An abstract geometric pattern consisting of numerous dark grey dots of varying sizes connected by thin, light grey lines. The pattern is dense and irregular, resembling a network or a complex polygonal mesh. It is positioned on the left side of the image, with the lines and dots extending towards the center. The background is a solid, medium purple color.

KD-X2

REMOTE MAKER

KEYDIY
MAKE IMPOSSIBLE POSSIBLE

KD-X2 has all the usual KeyDIY functions and more! No tokens are required. The device works with PC software connected via USB for online only functions.

FEATURES:

- Ignition Coil detection
- Transponder Chip identification
- Remote identification
- Frequency detection
- Compatible with most Manufacturer's Chips
- Copies ID48 Chips (96 bit only)
- Works with iOS / Android Wi-Fi
- apps downloaded via store

Includes: KD-X2 Device, x3 KEYDIY Remotes, USB lead & connecting cables

To order the KD-X2, or for more information, contact the Sales Team today.
