TKM XTREME STARTER KIT MEGAMOS CRYPTO (ID48) SOFTWARE UPDATE FOR 884 & 884 MINI

TKM Xtreme Kit is a software update that enables the cloning of all Megamos® Crypto transponders with TKM heads or GKM chips. The cloning process can be started simply by inserting the TKM Xtreme electronic head in your device; this can then be reused as a standard new head. Thanks to this software, 884 Decryptor Mini & Ultegra machines can now clone almost 2000 car models: up to 95% of the cars, trucks and motorbikes from the past 20 years which are still in operation.

Item No. TKM-XTREMEKIT
