

DOOR KEYS 2018

KEYLINE

Innovators by design | Since 1770

A BIANCHI 1770 GROUP COMPANY

The background of the entire image is a piece of marbled paper. It features a complex, organic pattern of swirling, veined, and mottled shapes in shades of light gray, off-white, and pale yellow. The pattern resembles natural stone or biological tissue, with some areas appearing more solid and others more open or cellular. The overall effect is one of intricate, non-repeating texture.

Technology has found its way to beauty. Step by step, Research and Development have led us to a new concept, which we named *The Art of Duplication* and which summarises our determination to consider each and every tool as an object that can express the full talent of its user. And that can improve their world. Making it easier, more effective, more beautiful.

This is true for **Door Keys 2018**, the new residential catalogue. Our history as locksmiths started almost 250 years ago, and we are still passionately working to improve our keys. From Cadourine keys to the most sophisticated top security systems, Keyline marks the development of a rapidly evolving world, thus becoming the ideal partner for every kind of supply.

Its complete range of mechanical and electronic key cutting machines with proprietary software provides professionals, from hardware stores to DIY centres, from specialised locksmiths to large key cutting centres and the OEM market, with reliable, fast and precise tools for all needs. Next generation models create unprecedented work dynamics, taking the usual Keyline high quality to new levels of efficiency and usability.

Door Keys 2018 is part of the Keyline evolution towards a smarter world. A corporate history that dates back to 1770 and that has been growing day by day to improve the work of professional locksmiths and key cutters in all sectors.

Massimo Bianchi, Keyline Strategic Planner

La tecnologia ha trovato la strada per la bellezza. La ricerca e lo sviluppo, passo dopo passo, ci hanno portati a una nuova concezione: l'abbiamo chiamata *Arte della Duplicazione* e sintetizza il nostro impegno nel fare di ogni strumento un oggetto in grado di esprimere tutto il talento di chi lo userà. E di rendere migliore il suo mondo. Più semplice, più efficace, più bello.

Così è per **Door Keys 2018**, il nuovo catalogo per il settore residenziale. La nostra storia è iniziata con le chiavi, quasi 250 anni fa, e ancora oggi le miglioriamo con la stessa passione. Dalle chiavi cadourine ai più sofisticati sistemi per l'alta sicurezza, Keyline segna lo sviluppo di un mondo in rapida evoluzione, diventando il partner ideale per ogni tipo di fornitura.

La gamma completa di duplicatrici meccaniche ed elettroniche con software originale dà ai professionisti strumenti affidabili, veloci e precisi per ogni esigenza, dalle ferramenta ai centri DIY, dagli specialisti serraturieri fino ai grandi centri di duplicazione e al mercato OEM. I modelli di ultima generazione creano inedite dinamiche di lavoro, portando l'alta qualità Keyline verso nuovi livelli di usabilità ed efficienza.

Door Keys 2018 è parte dell'evoluzione Keyline per un mondo più smart. Una storia nata nel 1770 e cresciuta ogni giorno migliorando in ogni ambito il lavoro degli specialisti.

CUSTOMIZED KEYS CHIAVI PERSONALIZZATE

CUSTOMIZATION BY COINING

Customization by coining can be applied to several types of articles:

- Keys with round "A" and "T" heads.
- Keys with wide "D" and "F" heads, appropriate for more complex custom designs, promoting an excellent grip.
- Customized Jazz keys, identified by the "FJ" code, that are characterized by the dimensions of the head and the aesthetic innovation.
- Customized Pop keys, identified by the "FP" code, immediately identifiable among other keys, thanks to the five different colors of the head.

LASER CUSTOMIZATION

Key personalization with laser etching technology offers the advantage of being able to etch one's name, address, phone number and logo on standard keys, with plastic and Klite heads, even in smaller quantities than those required by the traditional coining technology.

PERSONALIZZAZIONE CON CONIO

La personalizzazione con conio può essere effettuata su diversi tipi di articoli:

- Le chiavi con testa "A" e "T", caratterizzate dalla forma rotonda.
- Le chiavi con testa "D" e "F", ampie e adatte a personalizzazioni più complesse, favoriscono un'ottima presa.
- Le chiavi Jazz personalizzate, indicate con "FJ", che si distinguono per la dimensione della testa e per l'innovazione estetica.
- Le chiavi Pop personalizzate, indicate con "FP", immediatamente identificabili anche nel mazzo di chiavi chiuso grazie ai cinque diversi colori della testa.

La personalizzazione è comunque possibile per tutte le chiavi.

PERSONALIZZAZIONE LASER

La personalizzazione delle chiavi con la tecnologia di incisione laser offre il vantaggio di poter avere il proprio nome, indirizzo, numero telefonico e logo su chiavi standard, con testa plastica e Klite, anche su lotti di quantità inferiore rispetto alla tradizionale personalizzazione con conio.

FANCY | POP | JAZZ | ROCK | COLOR | KLITE

Colorful, appealing, easy to hold and customizable thanks to a large engraving surface, are the Keyline colored edge cut keys composed of Fancy, Pop, Jazz, Rock, Color and Klite.

Colorate, accattivanti, facili da impugnare e personalizzabili grazie ad ampia superficie di incisione, sono le chiavi piatte colorate Keyline composte dalla gamma Fancy, Pop, Jazz, Rock, Color e Klite.

Fancy are the most eccentric keys of the family and represent a new way of recognizing keys on your key ring. Available in many patterns, designs and colors, they can be completely customized with images of your choice.

Fancy sono le chiavi più eccentriche della famiglia e rappresentano un nuovo modo di riconoscere le chiavi nel mazzo. Disponibili in tante fantasie, disegni e colori, possono essere completamente personalizzate con immagini a vostra scelta.

Pop and Jazz keys are made with a longer neck to ensure functionality, which is important in the cylinders installed with anti-housebreaking systems. They are produced with the "Super Universal" profile, offering greater usage versatility. The head, with colored plastic inserts, perfectly allows customization to distinguish keys in the bunch. They are available in packs of 50 pieces per color or 100 pieces coming with assorted colors. The available colors are: red, yellow, light blue, orange and green.

Le chiavi Pop e Jazz sono realizzate con il collo più lungo per garantire la perfetta funzionalità nei cilindri anti-effrazione. Il profilo Superuniversale offre una maggiore versatilità d'uso e la testa, con gli inserti in plastica colorata, si adatta ad una perfetta personalizzazione. Disponibili in confezioni da 50 pezzi con un singolo colore o da 100 pezzi con colori assortiti. I colori disponibili sono: rosso, giallo, azzurro, arancione e verde.

Rock are the new arrivals, they are bold and captivating keys. With "Rock&Roll" graphics they are available in new bright colors specially chosen by Keyline: lilac, cyclamen, red purple, orange, yellow, lime green, pine green, denim blue, dark blue, black.

Rock, le nuove arrivate sono chiavi grintose e accattivanti. Con una grafica "Rock&Roll" sono disponibili in nuovi sgargianti colori appositamente scelti da Keyline: lilla, ciclamino, rosso porpora, arancione, giallo, verde lime, verde pino, azzurro denim, blu scuro, nero.

Color keys are the classic Keyline colored keys with a practical plastic colored head allowing an immediate identification.

They are available in the most popular profiles and in six sparkling colors: red, yellow, violet, light blue, black and green.

Le chiavi Color sono le classiche chiavi colorate Keyline con una pratica testa in plastica colorata per un'immediata identificazione della chiave.

Sono disponibili nei profili più diffusi ed in sei brillanti colori: rosso, giallo, viola, azzurro, nero e verde.

Klite is the key manufactured with a special alloy of aluminum and titanium. The material features make the key extremely light and durable. Klite is completely colored in the following available colors: red, pink, orange, yellow, green, light blue, blue, violet, black and silver.

Klite è la chiave speciale prodotta in una lega speciale di alluminio e titanio che la rendono leggerissima e soprattutto resistente. Klite è completamente colorata in: rosso, rosa, arancione, giallo, verde, azzurro, blu, viola, nero e argento.

Keyline keys are manufactured exclusively with **high quality prime materials**:

- OT59 alloy Brass, as used in the watchmaking industry;
- 7075 T6 alloy Aluminum, as used in the aeronautical engineering sector;
- Steel, reliable, durable and smooth for the key cutting operation;
- and Nickel Silver, as used in jewelry manufacturing.

All these materials are particularly suitable for the milling/cutting operations.

Le **chiavi Keyline** sono prodotte esclusivamente con **materie prime di alta qualità**:

- Ottone in lega OT59, usato nel settore dell'orologeria;
- Alluminio in lega 7075 T6, usato nell'industria dell'ingegneria aeronautica;
- Acciaio, affidabile, resistente e liscio per le operazioni di taglio chiave;
- Alpacca, usato nella produzione di gioielli.

Tutti questi materiali sono particolarmente adatti per le operazioni di fresatura e taglio.
